

Alain E. Kaloyeros, Ph.D. Senior Vice President and Chief Executive Officer

## JONATHAN HOLDER Vice President of Facilities and Infrastructure

Jonathon Holder is CNSE Vice President of Facilities and Infrastructure. He received his B.S. in Mechanical Engineering from the University of Bridgeport and his Masters Certificate in Project Management from George Washington University.

Prior to joining CNSE, Mr. Holder spent more than 25 years working at IBM. Mr. Holder's accomplishments at IBM include installation of over 700 fully automated 300mm tools in a dense pack layout with ramps up to 30 tools per month; management of the design and construction of IBM's first 300mm semiconductor fabrication facility; and acting as the program manager for the design and construction of IBM's leading-edge 300mm semiconductor fabrication facility, which has received acclaim from industry analysts as one of the most innovative fabs ever built.

In recognition of his many accomplishments at IBM, Mr. Holder has been the recipient of the IBM People Management Award, the IBM Microelectronics General Managers Award, and the IBM Ovation Award for Outstanding Team Leadership of the Annex Program. He has been a member of the CNSE staff since 2009.
